

To the Friends of Ivonne Hernandez:

Chère amis,

We at the Migrant Farmworkers Support and Agitista Networks are writing today to share our outrage over the ordered deportation of Ivonne Hernandez.

We stand with Ivonne Hernandez in her struggle for the right to remain in Canada with her son; for the right to regain custody of her child; for the right to status, to walk the streets of Montreal with dignity, free from fear of arrest, detainment, deportation and forcible separation from her son.

We demand that Minister Alexander immediately regularize Ivonne Hernandez's status in Canada, which he has the power to do.

We demand that Minister Blaney cancel the removal order against Ivonne Hernandez, which he has the power to do.

We demand that Minister De Courcy directly intervene in this case to push Minister Alexander regularize Ivonne Hernandez's status.

Thank you for your work to bring this to public light. Nous penserons à vous tous au cours des prochains jours.

En solidarité en la lutte contre les frontières partout,

Elise Hahn and Norah Bowman
