STATUS FOR ALL!

A March for Justice and Dignity for Migrants and Refugees

Many of our friends, colleagues, and family members have been deported by the Canadian government, while others are forced to live underground, or have been jailed because they are undocumented. If the Conservative government passes the Refugee Exclusion Act (bill C-31), it will exacerbate the difficulties already lived by migrants and refugees.

We demand STATUS FOR ALL to break the fear and isolation associated with the reality of being a non-status person. We reject the divide-and-rule tactics used by the state to classify migrants as "good" versus "bad" immigrants.

We demand an end to deportations and detentions of migrants, refugees, and non-status! We also demand the abolition of double punishment of migrants. We invite you to join us on May 26th!

Organised by : Solidarity Across Borders, Dignidad Migrante, JOC-Montreal, Mexicains unis pour la régularisation, Immigrant Workers' Center, No One Is Illegal-Montreal
